EDUCATION

- Bangalore Institute Of Technology** Bangalore, Karnataka
B.Tech in Computer Science and Engineering; CGPA: 8.45 *Dec 2021 – May 2025*

PROFESSIONAL EXPERIENCE

- Ribbon Communications** Bangalore, Karnataka
Software Development Intern (Frontend Engineering) *Apr 2025 – Sep 2025*
 - Frontend Development:** Developed and maintained enterprise analytics dashboards using **Angular 16** and **TypeScript**, contributing to **production-ready** features across multiple product modules.
 - Accessibility Compliance (WCAG 2.1):** Resolved **20+** **WCAG 2.1** accessibility issues by improving **keyboard navigation**, **ARIA labels**, **semantic HTML**, and **color contrast**.
 - LDAP and Security Features:** Implemented **LDAP-based UI workflows** for certificate display, secure certificate download, and configuration enhancements in an enterprise environment.
 - Version Control and Collaboration:** Collaborated with cross-functional teams using **Bitbucket** and **Perforce** in **CI/CD-aligned development workflows**.
 - Experience Letter:** Official internship **experience letter**. (View Letter)

PROJECTS

- Collaborative Whiteboard Application**
Full-Stack Developer
 - Real-Time Collaboration:** Built a real-time collaborative whiteboard using **Next.js**, **Node.js**, **Socket.io**, and **Turborepo** to support live multi-user drawing synchronization.
 - Backend Architecture:** Designed backend services with **Node.js**, **Prisma ORM**, **PostgreSQL**, and **Redis** for scalable data handling and event processing.
 - Background Processing:** Integrated **BullMQ** for asynchronous background job processing to improve performance and system reliability.
- MyDrive – Secure File Storage System**
Backend-Focused Full Stack Project
 - Backend Architecture:** Designed and implemented a secure file storage backend using **Node.js**, **Express**, **PostgreSQL**, and **Prisma** for file metadata, authentication, and access control.
 - Efficient File Upload Pipeline:** Integrated **AWS S3** with presigned URL generation to enable direct client-to-cloud uploads, reduce server load, and support scalable large-file handling.
 - File Management APIs:** Developed REST APIs for uploading, listing, downloading, and deleting files with database-backed ownership verification and secure download flow.
 - CLI Upload Tool:** Built a Node.js CLI tool that recursively uploads local directories to cloud storage using chunked uploads and concurrent processing.
 - Frontend Integration:** Developed a lightweight **Next.js** interface for file uploads and management using presigned URLs for efficient client-side transfers.
 - Live Link:** <https://mystore-olive.vercel.app/>

TECHNICAL SKILLS

- Programming Languages:** JavaScript, TypeScript, C++, Go (intermediate)
- Frontend Technologies:** React, Next.js (beginner), HTML5, CSS3
- Backend Technologies:** Node.js, Express.js, REST APIs, Socket.io, Linux fundamentals
- Databases:** MongoDB, PostgreSQL, Prisma ORM, Redis
- DevOps & Cloud:** Docker, Kubernetes, EC2, CI/CD
- Other Skills:** Data Structures and Algorithms (600+ questions), WCAG Accessibility, Git, Ooops, Dbms , GenAI, OS
- Other Experience:** Built a client website using Odoo Website Builder and redesigned the interface from scratch
